

SOT L-BAND Dual Fiber Transmitter

MODEL: SOT L-BAND

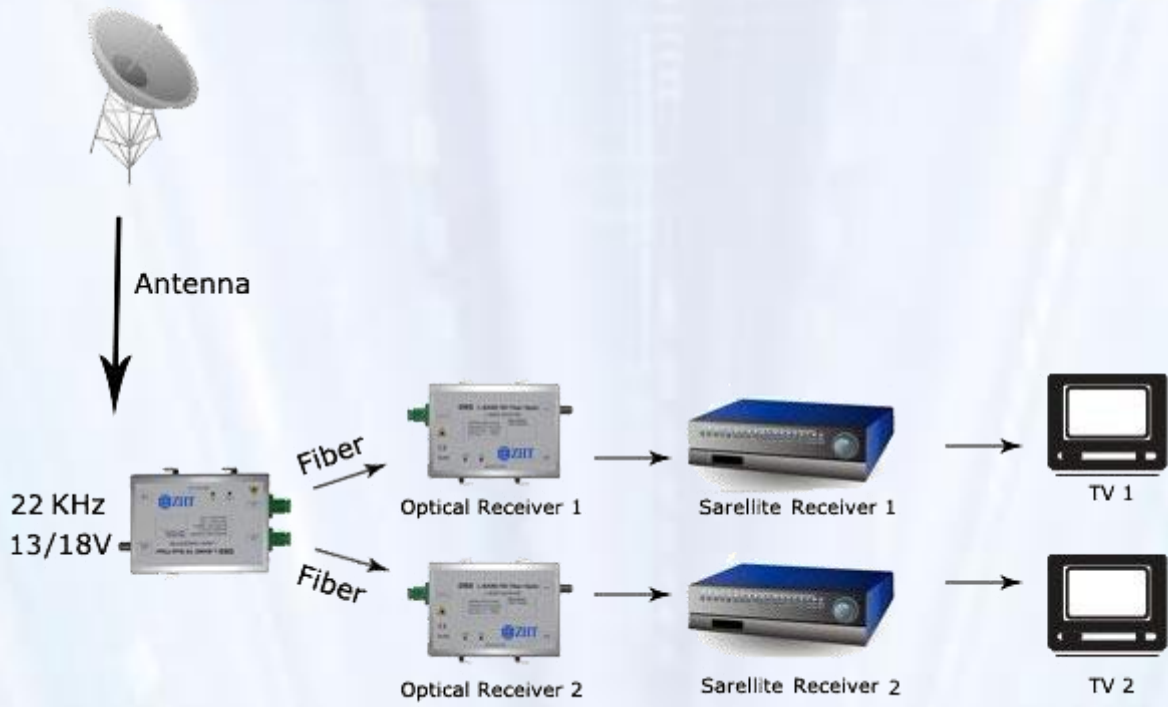

Product description

- Supports LNB feeding optical and 22KHz 13/18 DC;
- Different wavelengths and input range selectable on demand;

Switching AGC.

Downstream signal path	
Optical wavelength	1310/1550nm DFB/FP laser
Optical Output power of 1	1 mW Typical
Optical Output power of 2	1 mW Typical
Frequency range	45/950...2600 MHz
Entry level	55-78dB μ V
LNB Power	13V and 18V
RF connector	female
RF Return Loss	13
Input impedance	75 Ω
CNR	40dB
IMD	40dB
General	
Power consumption	3.5W
Power supply	18V DC
RF connectors	F female
Optical connector(s)	SC/APC
Dimensions (H x W x D)	118 mm x 210 mm x 40 mm
Weight	0.25 kg

Due to continuous improvement, all products specifications are subject to change without further notice.
